TARAC TECHNOLOGIES FUTURE - IMPORTANT INFORMATION

The Tarac Australia Limited Board has resolved to close the Tarac Technologies business in response to manufacturing costs outpacing inflation, structural changes in alcohol markets and increasing regulatory obligations that stifle productivity. **A date for the closure is yet to be determined.**

AS THE BUSINESS TRANSITIONS TO A CLOSE, **OUR PRODUCTS WILL CONTINUE TO BE AVAILABLE** INCLUDING OUR FULL RANGE OF GRAPE ALCOHOLS AND SINGLE MALT WHISKY.

Please contact Greg Jackson or Steph McKellar to discuss your needs and how we can ensure continuity of supply during this transition.

Tarac's winery residual services at all sites, Samuel Road, Berri and Griffith **will cease immediately. Processing services at Samuel Road** including alcohol adjustment, juice concentrates and wine for destruction **will also cease.**

This decision follows an extensive but ultimately unsuccessful sale process seeking a buyer for the business, either from Australia or overseas. As custodians of a business with close to 100 years of history in our communities, this decision is profoundly difficult for our people and their families. We are working to support them through this period.

We continue to value the relationship we have with all our customers and remain committed to supporting you as we go through this process.

Please stay in contact with Greg (0437 266 625) or Steph (0429 854 699) if you have any queries. Alternatively, I can be contacted via mobile 0412 103 501 or email jeremy.blanks@tarac.com.au.

Yours sincerely,

Jeremy Blanks
Managing Director & CEO
